*HELP YOUR FOREST FIRE WARDEN
PREVENT FIRES—IT PAYS!*

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayer's money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden

who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accom-

plishment as it might appear at first glance. Let each one who reads this—

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES**—his efforts are only as effective as is the cooperation you give him!

AUDITOR'S CERTIFICATE

This is to certify that we have examined the books and other financial records of the School Board of Gilmanton of which this is a true summary for the fiscal year ending June 30, 1946, and find them correctly cast and properly vouched.

GEORGE B. ROBERTS,
EMMA W. PRICE.

Auditors.

REPORT OF THE SUPERINTENDENT
OF SCHOOLS

To the Members of the School Board, Parents, and Voters of the Gilmanton School District:

The schools are still in the throes of adjusting themselves to trying conditions. Costs of scholars' supplies are rising, teachers are being enticed to higher paying positions elsewhere, enrollments are increasing, and school needs in this "international age" are great. The conditions under which the schools have been maintained since the last annual report are recorded herein.

*Buildings and Equipment, Maintenance, Operation,
Repair*

The School Board has used appropriated funds to maintain the school buildings. School boards in the past have tried to do the same, but changing conditions have often neutralized the efforts of the members.

How do the school buildings in Gilmanton rate?

1. The Kelley Corner school building is used for community purposes.
2. The Potter School building has been sold for \$755.50 to the Berjesen's of West Lynn, Massachusetts.
3. The Gale School, long unused, was offered for sale by bids on Jan. 16th.
4. The Smith Meeting House school building, located at the geographical center of the school district, remains in the custody of the school department.

5. The Iron Works school building was designed for a one-room school. It now has two rooms constructed from the one room and a storage space. The overflow of pupils is housed in the dining room of the Town Hall.
6. The Corner School, formerly the Academy, has two high-posted, hard to heat rooms, with an assembly room on the second floor.

By any school building standards in common use, it must be said that Gilmanton possesses no modern school plants. For school purposes, it actually owns only one building, the small Iron Works unit.

Thus, Gilmanton has two very definite needs to satisfy before it can have the type of school system many parents desire. (1) It should have a serviceable school building in which all of the larger pupils can be brought together daily for instruction in a program similar to a junior high school unit. (2) It should have satisfactory roads over which buses can be operated economically to bring the pupils to an enlarged school plant at the Corner and a primary unit at the Iron Works.

Potter School

A. V. Edgerly and Walter Edgerly deeded a plot of land to the Town of Gilmanton on November 11, 1889, recorded in Belknap Records Book 82, page 512. This land formed the grounds for the present Potter School. The School District owned the building.

On July 15, 1946, the School Board voted to accept a bid of \$755.50 from Frank W. and May V. Borjesen of West Lynn, Mass., for the building and land. To complete this transaction, the Selectmen called a special Town meeting on October 19, 1946, which voted to deed to the party purchasing the Potter School building the land acquired earlier from the Edgerlys.

The proper papers have been drawn by Nighswander and Lord of Laconia, and the transaction has been completed.

Gale School

The question of ownership of the land on which the Gale School sets has resulted in an extended investigation. From the records, it would appear that Dudley Prescott deeded a tract of land about the Gale School building to Nathaniel Gale on Nov. 14, 1794 and Nathaniel S. Gale transferred title to a tract of land to Owen J. Edgerly on Aug. 21, 1861. It has not been found that Nathaniel S. Gale's heirs have disposed of this tract, nor can it be ascertained that either the town of Gilmanton or the Gilmanton School District has a deed to the school grounds though a school building has occupied the land for many years.

With this information, the School Board advertised for bids on the Gale School building, to be opened on January 16, 1947. It is quite unlikely that any purchaser of the building will ever be dispossessed of the land.

Smith Meeting House School

The school board tried to arrange terms for leasing the Smith Meeting House school to the First Congregational Society of Gilmanton but no agreement is possible yet.

Water at Iron Works School

Surface water entering the well at the Iron Works School contaminated the supply. The well was cleaned a new cement top was constructed by Mr. Roberts, and a sample of the water analyzed by the State Board of Health. The report shows that the water "would be good except for some iron which deposits as a red sediment."

Teachers and Supervisors

At the Corner School, Miss Wilhelmina B. Reed, primary teacher, desired to be near her home in Northfield. Miss Clara S. Ouellet of Beebe River, graduate of Plymouth Teachers' College, with several years' experience, accepted the position of teacher of smaller children.

Mrs. Kathryn G. Cashin of Laconia relinquished her position in Gilmanton to be on the staff of the Gilford Grade School. Mr. Vincent Gatto of Concord, a teacher and administrator for many years, came to the principalship in September.

Mrs. Florence M. Durgin, Principal at the Iron Works, Mr. Theodore N. Flores, upper grade teacher, and Miss Priscilla E. Mattette, Music Supervisor, were reelected to their positions.

To care for the added enrollment at the Iron Works School, Mrs. Zelma Watts of Groton, started teaching upper primary and intermediate pupils in September. Mrs. Watts has taught for several years previously.

Drawing Teacher

Gilmanton has been fortunate in these times of great teacher shortages to have effective classroom teaching conducted daily in its five school rooms. However, one of its present needs is the services of a teacher of drawing.

Pupils

Enrollment, Advancement, Attendance, Transportation,

Health

The influx of new residents to Gilmanton created transportation and classroom problems for the School Board in September. It has been necessary to provide

more extensive routes at the Corner because of the limited capacities of the conveyances used by the present contractors. Sufficient seating facilities at the Iron Works were acquired by opening a temporary classroom in the dining room of the Town Hall.

Early fall enrollments are as follows:

Miss Ouellet, Corner School	I	10	
	II	7	
	III	7	
	IV	9	
			<hr/>
			33
Mr. Gatte, Corner School	V	9	
	VI	6	
	VII	6	
	VIII	9	
			<hr/>
			30
			<hr/>
			63
Mrs. Durgin, Iron Works	I	11	
	II	12	
			<hr/>
			23
Mrs. Watts, Iron Works	III	9	
	IV	11	
	V	8	
			<hr/>
			28
Mr. Flores, Town Hall	VI	12	
	VII	5	
	VIII	9	
			<hr/>
			26
			<hr/>
			77

If there were room, pupils would receive greater benefit from their class instruction, particularly among the smaller children, with fewer pupils under a single teacher. At present, over thirty pupils on several learning levels are too many for one teacher to instruct efficiently.

A desirable grouping of the pupils in Gilmanton might be to maintain a primary unit in the small school at the Iron Works, and transport all pupils over the new highway to the Corner to form large groups, in Grades V, VI, VII, and VIII, benefiting them through such studies as cooking, sewing, manual training, craft or handicraft activities, dramatics, speaking, and club work. With large groups, men and women teachers with training to teach these special subjects could be hired, thus giving Gilmanton adolescents the experiences on a small scale which those in city or large town centers now have. To acquire these things, it is necessary to bring about three conditions:

1. Alter the interior, first floor of the Academy building to use all the available space and construct classrooms therein;
2. Gravel the side roads so school buses, owned by the School District, can easily transport the pupils in large groups to the two schools; and
3. Hire teachers with training to use the facilities made by renovating the Academy into a most useful school building.

School Transportation

The transportation of pupils is an expensive item in the school budget. The District can materially reduce the expense for carrying pupils if it will provide good gravelled roads and purchase and operate district-owned school buses. From 30% to 50% per pupil-mile can be saved by this means.

There is an added advantage which district-owned buses have. They could be used, under certain conditions, to transport pupils to high school at a minimum of expense. If the 1947 Legislature enacts into law a requirement that high school pupils are entitled to transportation to high school, it will become doubly important for the district to own and operate its own school buses.

Some of the present contractors may desire to continue operating privately-owned units, but it is entirely feasible for some residents who now transport pupils to school to accept jobs as drivers and caretakers of district-owned buses. Thereby, the taxpayers of Gilmanton would benefit materially through the reduction in expense and local drivers or operators of buses might be obtained.

School Lunches

In pre-war years, very successful school lunch programs were operated at the Corner and Iron Works schools. When sufficient numbers of pupils desire hot meals at noon and there is financial assistance for such a project from the National School Lunch Program, it may be possible to again have nourishing meals at relatively small cost for pupils who prefer to buy them instead of eating sandwiches.

Health

Due to changes in the nursing service in some of the five districts comprising Supervisory Union #59 of which Gilmanton is a part, it was possible to have one school nurse, instead of three, attend to the health program. Mrs. Lurline H. McCook, for eighteen years the school and district nurse in Tilton and Northfield, was selected. It is now possible to have a coordinated health program and to note steady improvement in the well-being of boys and girls.

Advancement

The theme which is guiding the teachers in their work with pupils this year is: "Our Thinking in the Future Must be Worldwide". In advancing this theme, a teachers' meeting was held at the opening of the fall term. At

this the State Director of Elementary School Services. Miss Gertrude M. Lewis, spoke on "Geography for All Learners". The school nurse, Mrs. McCook, used a colored film, "Teacher Observations of School Children".

Conclusion

In submitting this seventh annual report, it is a pleasure to express my appreciation again to the members of the School Board, the teachers, the nurse, the janitors, the bus drivers, and the citizens for their efforts and interest in supporting the schools.

Respectfully submitted,

DONALD P. MATTOON.
